**The Time Attack Organisation delivers high-impact motorsport and car culture experiences at the UK's most iconic race circuits.**

A large, diverse crowd of people is gathered at an outdoor motorsport event. In the background, there are several large tents, some white and some dark, with various flags and banners hanging from them. The flags include logos for 'SEVEN', 'JAMIN', and 'CONY'. The crowd is dense, with people of various ages and backgrounds. The overall atmosphere is one of a large-scale public gathering.

**Our events bring together live competition, large-scale car shows,  
and open paddocks to create genuine connection between fans,  
drivers, and brands.**

Across a national calendar, tens of thousands of enthusiasts engage with a platform built on access, atmosphere, and authentic automotive culture.

# Introduction

## Who We Are – Time Attack Organisation

The Time Attack Organisation is the UK's leading motorsport and live events company, recognised for delivering dynamic and high-impact experiences that bring together competition, performance, and car culture.

At the core of our group are the Time Attack Championship and Racing Hondas, both proudly affiliated with Motorsport UK. Our events are uniquely designed to run alongside these championships, combining the thrill of motorsport with the energy and creativity of the aftermarket and modified car scene.

Founded by Andy and Rob Barnes, the business has evolved into a professional and highly respected organisation with a dedicated full-time team, including a Head of Events and a Social Media Manager. Together, they bring extensive experience, passion, and industry knowledge that continue to drive the growth and success of our event portfolio year after year.

Time Attack Organisation is the UK's only motorsport events business that seamlessly blends live action with the excitement and spirit of the performance car community.
